Instructions for Assembling Your Cuties Valentines:

1. Print out these valentines and carefully cut along the dotted lines to create your shapes.

2. Gently cut out the circle in the middle of each valentine—this is where your Cutie will go! (Be sure to measure your Cutie first before cutting because Cuties come in all shapes and sizes.)

3. Fill in the "To" and "From" sections with your name and the recipient's name.

4. Fit the valentine around your Cutie orange by sliding it into the circle. Secure it using pieces of tape to keep the valentine in place around your Cutie, so it doesn't slip off.

5. Hand them out to your classmates, friends, or loved ones for a sweet and healthy Valentine's Day treat!
